## **ITEM/ISSUE:**

PNM PowerUp Grant for benches and bike racks within the Santa Fe River corridor

## **BACKGROUND/SUMMARY:**

In March 2016 the Santa Fe Watershed Association with assistance from the City of Santa Fe's River Commission applied for a grant to secure five benches and bike racks to be placed within the Santa Fe River corridor. This would allow for great enjoyment for the trail users. We were awarded the grant in May 2016.

The benches and bike racks specified were selected to match in style & color to the existing benches and bikes currently placed along the river specifically in the Parque del Rio park sites. Please see the attached packet with location maps, photos of existing benches, specification for new benches/bike racks, photo of proposed footing, and copy of Parque del Rio specification sheet.

The City of Santa Fe's Parks Department has agreed to install the benches and bike racks as part of the grant. The footings will be class "A" concrete with a minimum of 3,000 PSI compressive strength. Specification will match existing bench and bike rack installations per city standards.

**RECOMMENDED ACTION:** We are seeking approval of two bench & bike rack placement located within the historic district.
